DETAILED ACTION

1. This action is responsive to the election without traverse of Group I received on 10/16/06. Examiner notes claims cancelled in the amendment: 34-35 and 37-40.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jennifer Hayes on 12/8/06.

3. Please Amend the Claims as follows:

In Claim 16, line 8:

"... relationship between the user and the one or more associates; and

automatically repositioning one of the associate icons radially relative to the user icon based on extent of content between the user and the associate; and further

enabling the user to selectively position each associate icon at any location within the user interface to define the relationship between the user and each of the associates."

Please Cancel Claim 18.

In Claim 30, insert the following paragraph at the end of the claim before the punctuation:

“and further enabling the user to selectively position the associate icon at any location within the first user interface to define the relationship between the user and each of the associates”

In Claim 31, insert the following paragraph at the end of the claim before the punctuation:

“and further enabling the user to selectively position each associate icon at any location within the first user interface to define the relationship between the user and each of the associates”

In Claim 32, insert the following paragraph at the end of the claim before the punctuation:

“and further enabling the user to selectively position each associate icon at any location within the first user interface to define the relationship between the user and each of the associates”

Reasons for Allowance

4. Claims 1-8,10-17, 19-32 and 41-43 are allowed.

5. The following is an examiner's statement of reasons for allowance: The prior art of record clearly teaches communication interfaces where a user icon can freely move around a virtual world and interact with associates represented by associate icons. Although the cited prior art teaches this and teaches the distance between the associate and the user to reflect the level of communication between them and defines a particular relationship between the two, they fail to teach allowing a user to position the other icons representing the associates to define the relationship between the user and associates disclosed by the claims as amended, nor has that feature been found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sara M. Hanne whose telephone number is (571) 272-4135. The examiner can normally be reached on M-F 7:30am-4:00pm, off on alternating Fridays.
